MEMORANDUM FOR: Deputy Director for Administration  
VIA: Director of Medical Services  
FROM: Chief, Medical Operations Division  
Office of Medical Services  
SUBJECT: Medical Operations Division

25X1 1. The use of medicine to accomplish specific goals of the  
25X1 Agency are limited only by one's lack of imagination and  
25X1 availability of resources. MOD (Medical Operations Division)  
25X1 has an overseas as well as a domestic capability to support a  
variety of operational requirements. In both areas we utilize  
Agency physicians, psychiatrists, Medical Services Officers as  
well as cleared non-Agency physicians and psychiatrists. Hqs  
has approximately [ ] physicians and [ ] psychiatrists cleared for  
operational use. Cleared medical personnel in the overseas  
environment are limited to those assigned to [ ] medical  
facilities. Medical personnel assigned to [ ]  
and to some degree [ ] will have a more  
direct access to such consultants than the others. Although we  
work with all of the Agency's Directorates, the DDO is the  
biggest user of MOD's operational support.

2. Medical Operations Division has 4 Branches

I. Field Activities Branch

25X1 a. It is responsible for providing medical care  
25X1 to overseas Agency employees and dependents as well as  
25X1 providing operational support to the case officer.  
This is accomplished through [ ] RMO's (Regional Medical  
Officers) [ ]

#### IV. Training Program

One individual is assigned to monitor the Headquarters and overseas medical training programs. These consist primarily of CPR and Medical Preparedness taught to a variety of Headquarters and overseas audiences. A number of specific requests from within the DDO to medically train individuals [redacted]

[redacted] to instruct members on specific overseas missions or Headquarters types working on specific projects where they might be prone to a specific injury are also the responsibility of this office. Appropriate liaison with [redacted] civilian medical organizations are maintained to facilitate this training.
